Your Brain and Nervous System

<http://kidshealth.org/kid/htbw/brain.html>

How The Body Works.....good for both Middle and High School

<http://kidshealth.org/kid/htbw/>

A very interesting site called: Body Bytes.....

Body Bytes is an interactive web site showcasing the human body and the historical treatments for health and beauty. What did George Washington REALLY die of? Why would a doctor today apply live leeches to a patient? Where in the world is a 15" neck considered beautiful? Why did women bind their feet to reach a length of 3"?

<http://library.thinkquest.org/10111742/>

Good interactive site for Middle and High School

<http://library.thinkquest.org/06aug/01768/home.html>

<http://www.lessonplanspage.com/printables/PTTheHumanBodyCorporation.htm> - geared for older kids - writing a letter to the corporation as to why you, an organ, should not be fired and explain why you are an important part of the corporation.
